Education

Dev Bootcamp

(2015)

Louisiana State University

Bachelor's Degree in Spanish
(2003-2007)

Projects

- **Apathy:** A Google Chrome extension created for a hackathon. Allows Reddit commenters to upload sarcastic ASCII art along with their commentary. Built on Javascript.
- **Legislative:** Co-created web app which uses government data in real-time to provide easily digestible visualizations of bills hitting the congressional floor. Uses Express, MongoDB, HighCharts, Javascript, & OpenGov API.
- **SkipToMyLoo:** A yelp like app for rating public toilets. Uses Ruby, Sinatra, & SF Open Data

Experience

Dev Bootcamp

Graduate

San Francisco, CA
August 2015 – December 2015

- Focused on Full Stack Web Development
- Designed applications using MVC architecture, RESTful routing, & OO Design
- Refactored multiple code bases through group code switches
